EMS
project

We have worked with QC Facades on numerous projects over the last 5 years. Many of these projects have been innovative in design, using the latest state of the art, cutting edge materials and technology. QC Facade's service and attention to detail, starting in the design phase and continuing through the manufacturing and installation of these complex and varied systems, has consistently exceeded our expectations. Their systems are thoughtfully engineered to provide an economical and efficient installation, resulting in outstanding functionality, architectural and aesthetic appeal. QC Facades has proven highly effective in being able to produce systems that conform to budgetary and scheduling requirements; meeting, and in most case exceeding, our expectations as well as our clients' expectations. It is always a pleasure to work with their knowledgeable, experienced, creative and responsive team.

Sincerely,
Leon Kotecki, President
(EMS Installer)
