QC Facades is dedicated to protecting our natural resources and the legacy we leave behind for future generations. Each product and system development by QC Facades is evaluated for it's carbon footprint and disallows any practice or products that don't strictly comply with the Living Building Challenge (LBC).

International Living Future Institute and other organizations continue to develop practices that will ensure a sustainable legacy. QC Facades implements policies and maintains environmental transparency throughout our product lines to help secure a healthy future.

QC Facades 100% Red List Compliant

Below is a list of stand colors using the RAL Classic color system
